5/8" Diameter, Satin Aluminum Stand Offs Included With Each 17" X 17" Sign: (4 per sign)

The Acrylic Face-Mount Process

LightJet prints are archival quality, true photographs on photographic paper. When permanently bonded to 1/4" acrylic, the results are stunning. Images are crisp, smooth, and the thick weight of the acrylic gives a luxurious and permanent feel to your signage. The print will not fade from indoor light and the acrylic resists yellowing from UV rays. These signs are built to last - beautifully.

- ← gallery quality, non-glare, 1/4" acrylic
- ← optical grade adhesive
- ← photographic LIGHTJET print
- ← permanent adhesive
- ← hard backing material
